

Company profile

[OrangeScape](#) is a leading cloud-based B2B Indian tech company offering disruptive SaaS platforms for business process and workflow automation. Gartner and Forrester recently listed OrangeScape as one of the Top 10 Platform-as-a-Service (PaaS) companies. OrangeScape's flagship product [KiSSFLOW](#) is used by over 10,000 customers across 121 countries, including more than fifty Fortune 500 companies such as Airbus, Motorola, and Reckitt Benckiser.

OrangeScape was founded on the belief that simple things should stay simple and complex things should be possible. Headquartered in Chennai, India and with operations in North America, OrangeScape was named a Top IT Innovator in India by NASSCOM.

About KiSSFLOW:

OrangeScape's KiSSFLOW is on a mission to reduce chaos in every office. With this cloud-based workflow automation platform, any business user can create a highly customised automated process instantly. It meets the workflow automation needs of every team, department and organisation, and deploys the most intelligent business process management tools to bring in more efficiency, control, and accountability.

In 2017, Forrester's New Wave listed KiSSFLOW in its top class of 13 Low Code platforms for business developers.

[KiSSFLOW](#) has 4.5/5 stars in the G Suite Marketplace. It boasts an intuitive UI and is built around OrangeScape's patented model-driven business application development paradigm, ideal for both enterprise and SMB business users and IT teams.
