

OrangeScape

Suresh Sambandam

Founder & CEO

[OrangeScape](#)

Profile:

Suresh is the Founder & CEO of OrangeScape, a home-grown company offering disruptive SaaS platforms for business process and workflow automation. [OrangeScape](#) is a cloud pioneer from India and was one of the global 10 platform-as-a-service (PaaS) companies featured in Gartner and Forrester reports. The company's flagship product [KiSSFLOW](#) has 10,000+ customers across 121 countries rising to #1 position in under two years of launch.

After an initial entrepreneurial stint at the age of 19, Suresh went on to work at top brands such as Hewlett-Packard, Selectica (later partially acquired by Accenture). Suresh has extensive experience in product engineering, product management and product marketing. His expertise extends to cloud technologies, enterprise applications, inference engines, configuration engines, rule-based computing and enterprise middleware. He also has three US patents to his credit.

Suresh is passionate about entrepreneurship, technology startups and spends a significant amount of time in the startup ecosystem mentoring young companies. Suresh is a regular speaker at various industry forums & academic institutions, and is a co-founder of SaaSx, an exclusive platform for SaaS entrepreneurs to come together to bond, learn, and engage.
